<b>PROJECT TOTAL</b>	<b>1 site</b>	<b>\$18,750</b>

### PROJECT SCOPE NOTES:

- **eGov Strategies** is now a division of CORE Business Technologies, a software provider of payment and citizen engagement solutions for local and state government clients. eGov Strategies’ website solutions, development, training and support continue to be based out of our Indianapolis office at 101 W. Ohio Street, #2250, Indianapolis, IN 46204.
- **Increased Annual Support & Maintenance:** The current maintenance for site support and training is \$3,800 annually. With the update and upgrades, the new annual maintenance will increase to \$4,000 annually.
- **Need for New, High Quality Images:** To prepare for the project, the City should pursue collecting high-quality digital images for the site. Recently, eGov has begun suggesting that clients utilize public safety drones (or private sector firms that provide drone photography) to collect sharp imagery and video of key community landmarks, vehicles, buildings, etc. Drone and video content is not required, however, high-quality images are required to enhance the site. Upon official kickoff of the project, eGov will provide a list of recommended photos.
